When the roll is called of those who deserve resounding success by their hardwork and devotion, You surely will answer ‘aye’!
But the race is not always won by the best horses;
Accidents do occur.
It is the desire of the Postgraduate College
that the efforts of her students be crowned
with resounding success in the quest for truth
and knowledge in the Nation’s Premier
Institution of Higher Learning.

UNIVERSITY OF IBADAN - AN INTRODUCTION

The University of Ibadan was founded in 1948 as a College of London University, with 104 students spread among three Faculties: Arts, Science and Medicine. It became an autonomous, degree-granting institution in 1962. Today, the University has a total enrolment of about 20,000 students shared among the following faculties: Arts, Science, Basic Medical Sciences, Clinical Sciences, Dentistry, Public Health, Pharmacy, Agriculture, Renewable Natural Resource, Economics Multidisciplinary Studies, the Social Sciences, Education, Veterinary Medicine, Technology, School of Business, Law as well as an Institute of African Studies, Institute of Education, Institute of Advance Medical Research and Training and the Centre for Literacy Training and Development in Africa. The enrolment of postgraduate students used to be about 40% but it is now over 50%.

The University of Ibadan over the years has been highly ranked in Nigeria and in Africa. For instance, the university was ranked by the National Universities Commission as the Overall Number 1 in its 2004 Ranking of Nigerian Universities. Ibadan was also ranked No 1 in Dentistry, No 1 in Medicine/Health Sciences; No 1 in Pharmacy, No 1 in the Sciences, No 1 in Veterinary Medicine; No 2 in the Social Sciences, and No 3 among Research Universities. Moreover, Ibadan was ranked No 1 in PhD Graduate Output. Recent Global ranking of Universities places Ibadan the 493rd in the world and 4th in Africa. We are still moving on. Postgraduate programmes at Ibadan have been so successful for a variety of reasons. These include:

1. **Financial autonomy**

   The funds realised from postgraduate students at the University of Ibadan are ploughed back to service postgraduate training and research by allocating the greater percentage of such fees into the academic departments and the Postgraduate College.

2. In order to encourage postgraduate students endowed with outstanding research potentials to undertake full-time research leading to a PhD of the University of Ibadan, the Postgraduate College has established four schemes, namely:

   (a) The University of Ibadan Postgraduate College Scholarship Scheme

   (b) The University of Ibadan Postgraduate College Teaching and Research Assistantship Scheme

   (c) The University of Ibadan Postgraduate College Student candidates with perfect CGPA

   (d) The University of Ibadan Postgraduate College Scholarship for Students Living with Physical Disability

3. **Funding Support to Academic Units for the Publication of Learned Journals** no less than 15 academic journals are supported annually

4
4. Maintenance of an active academic environment through the Interdisciplinary Research Discourse Series.

5. A comprehensive review of the regulations governing higher degrees. After extensive discussions and deliberations by various sub and Ad-Hoc Committees of the Curriculum Committee, Executive Committee and the Board of the Postgraduate College, Senate approved “The 2004 Regulations Governing Higher Degrees” in the University of Ibadan (ISBN 978-37883-0-2), the document was revised in 2014 and updated in 2020. The entire postgraduate curriculum is now being reviewed and revamped taking into cognisance recent trends and developments in the various disciplines offered at the University.

6. Academic workshops to strengthen the capacity of postgraduate students and teachers are organised on a regular basis for postgraduate students and teachers: Such workshop focus on issues bordering on:

- Research methodologies
- Grant making
- Conceptual frameworks in Research;
- Use of Statistics and the ICTs;
- Writing a PhD thesis;
- Writing academic papers;
- Development of a unique University of Ibadan Manual of Style (UIMS);
- Ethics in Research.

7. Research publications.

8. Information Communication Technology Support to all academic units (Departments, Faculties, Institutes, Centres and the College of Medicine) to aid in teaching, research and publications.

The University has three postgraduate halls of residence with the capacity of 2,800 bed spaces. Most of these halls lie within walking distance University Library of learning facilities. Two more are to be constructed and completed next year.

The University houses an Arts Theatre and a resident performing company which, all the year round, produces a wide variety of plays generally available in the city (with a population of over two million people, the largest in black Africa). The university has several sports facilities including the sports complex which has soccer, hockey, cricket, basketball, volleyball pitches, and a gymnasium. Courts are provided for tennis and squash. There is also an Olympic-size swimming pool. The campus is well-laid out with clear inscriptions on roads and monuments. It is a habitat for several rare and endangered plant species.
THE INFORMATION CONTAINED HEREIN IS INTENDED AS A GUIDE TO PROSPECTIVE APPLICANTS FOR ADMISSION. CANDIDATES ARE ADVISED UPON ADMISSION TO CONSULT DEPARTMENTAL AND FACULTY BROCHURES AS THEY RELATE TO THEIR RESPECTIVE PROGRAMMES AND COURSES OF STUDY.

All correspondences should be addressed to:

Deputy Registrar (Admissions and General Administration)
Postgraduate College,
University of Ibadan,
Ibadan,
Nigeria.

Prof. J. O. Babalola
Provost
July, 2021

1. ADMISSION

General Regulations Governing Admission to Higher Degree Programmes

(a) Candidates for admission to higher degree programmes shall normally be graduates of the University of Ibadan or other Universities/Institutions recognised by the Senate. Admission shall be made by the Postgraduate College on the recommendation of the appropriate Faculty Postgraduate Committee.

(b) Candidates without any previous higher degrees in the relevant discipline may be admitted only to either the Degree of Master or the Professional Degree of Master.

(c) Candidates with recognised “Research Higher” Degree in the relevant discipline may be admitted to the M.Phil or Ph.D. degree programmes as appropriate, on the recommendation of the appropriate Faculty Postgraduate Committee.

(d) Where, in respect of an otherwise eligible candidate with a higher degree, a firm recommendation for admission to the Ph.D. degree programme cannot
be made, a Faculty may recommend that a candidate be admitted provisionally to the M.Phil/Ph.D. programme pending an assessment report. Such an assessment shall be made by a panel set up by the Faculty Postgraduate Committee on the recommendation of the student’s department and shall take place not later than the end of the first semester of registration.

(e) SPECIAL WAIVER FOR MATURER APPLICANTS

All University of Ibadan graduates should be admitted to Postgraduate programme with the ordinary level criteria existing at the time their first admission. Candidate who did not fulfill the requirement as at the time of their admission are not eligible for consideration.

Special consideration may be given to candidates, who obtained their first degree not less than 20 years from the time of seeking admission to any postgraduate programmes. Such candidates must have been found to possess special skills or abilities and professionally or academically engage during the period 20 of years.

2. TYPES OF ADMISSION

(i) Full-Time Admission

Full-time admission can be offered only to candidates who satisfy the Postgraduate College that they are not in employment, or that they have been released by their employers to undertake full-time studies. Candidates found to have made a false declaration in this regard shall be asked to withdraw from the University.

(ii) Part-Time Admission

Candidates may be admitted to part-time registration, if they are on the academic staff of the University or can satisfy the Postgraduate College that facilities for their work as part-time students are adequate. Candidates applying for part-time registration may be asked to show evidence of release by their employers.

(iii) Admission as Occasional Students

Candidates who satisfy the minimum entry requirements for higher degree programme and are recommended by the Faculty Postgraduate Committee
may be admitted as occasional students, but shall not be awarded a degree of the University of Ibadan. This type of admission is also open to candidates registered for higher degrees of other Universities, recognised by Senate.

3. APPLICATION FORMS

Requests for application forms into higher degree programmes of the University are normally made every year. The procedure for obtaining Application Forms is available at www.pgcollege.ui.edu.ng.

Application forms cost ₦13,000 for academic programmes and ₦18,000 for professional programmes. Applicants for the degree of Master and Postgraduate Diploma are to pay an extra ₦3,000:00 for test of proficiency in English Language.

4. GUIDELINES FOR FILLING APPLICATION FORMS

(a) All application forms are to be submitted on-line. Applicants are to approach any Bank with payment advice on the portal. Note that E-channels are available.

(b) Incomplete information from an applicant may delay or halt action on such application.

(c) A candidate may apply to only one department or programme.

(d) Applicants are to upload their relevant credentials and submit along with their application electronically.

(e) *Acknowledgement of Application*

Applicants would be informed electronically (through the e-mail addresses provided in the electronically completed Application form) of progress in the processing of their forms.

(f) *Letters of Recommendation*

The Postgraduate College, University of Ibadan, requires three e-letters of recommendation from faculty members or others well acquainted with the student’s academic work. Please note that the referee forms are part of the on-line application to be completed and submitted electronically.

(g) *Transcripts/Certificates*
Official transcripts of all degrees completed are to be mailed directly to the Deputy Registrar/Admission Officer Postgraduate College. If the Registrar of an applicant’s University will provide an official copy to the College directly, applicants must enclose along with the application an unofficial or student’s copy of the transcript for temporary reference. To prevent delays, applicants should make adequate arrangements with their Registrars of their educational institution(s) to provide transcripts before the stipulated deadline.

5. **ADMISSION CRITERIA**

The University of Ibadan does not discriminate on the basis of race, colour, sex, sexual orientation or preference age, religion, national or ethnic origin, or physically challenged in the admission of students to all rights, privileges, programmes and activities generally accorded or made available to students in the administration of its educational policies and scholarship facilities. Applications are considered on a competitive basis by the Faculty Admissions Committee which evaluates all available information and selects the best qualified applicants from those whose credentials meet the standards for admission.

In every case, decisions are reached through a comparison of the academic merits of all applicants applying in the same field. A bachelor’s degree in a broad programme of general education is normally prerequisite for admission but is not sufficient in itself. Foreign applicants are expected to have bachelor’s degree with at least a Second Class Upper Division from Universities recognised by the Senate. Since the language of instructions in the University of Ibadan is English, proficiency in reading, writing, speaking and understanding English is required for admission. Applicants for the degree of Master and Postgraduate Diplomas shall be required to sit for a proficiency test and obtain a mark of at least 40% before their application can be considered. Academic records are also examined to determine whether the applicant has established a firm basis for graduate work in the proposed field of study. Letters of recommendation or Referee’s Reports are given very serious consideration.

When an applicant fails to provide required documents, (transcripts, etc) his or her admission chances suffer in relation to those whose credentials are complete.

*Interviews*

Interviews/subject tests maybe required for some programmes. The relevant Departments in collaboration with the Postgraduate College Admission Office will arrange such interviews/tests

*Policy on Deferred Admission:*
The Postgraduate College, University of Ibadan, does not entertain deferment of admissions. Any offer of admission not taken up in the particular year it is given, may be considered to have lapsed. The affected candidates may however, reapply in the following academic year if they are still interested in their respective course of study.

Such applications will be considered afresh along with other new forms. No bias would however be introduced.

6. AVAILABLE FACULTIES/DEPARTMENTS AND RESEARCH PROGRAMMES

(a) Doctor of Philosophy (Ph.D), Master of Philosophy (M.Phil), Master of Public Health (M.P.H.), Degree of and other Master degree such as M.A., M.Sc., M.Ed, LL.M, These are available in the following Faculties/disciplines:

(i) Arts

Arabic and Islamic Studies: (Arabic Language and Literature, Islamic Studies);

Classics: Classical Literature, Ancient History, Ancient Philosophy, Ancient Science and Religion, Classical Archaeology and History of Africa in Antiquity, Epigraphy: Latin Epigraphy; Greek Epigraphy, Classical Mythology, Gender Issues in the Classical World, Roman law and International Relations and Diplomacy

Communication and Language Arts; Receptive Communication/Language Arts, Expressive Communication/Language Arts, Applied Communication, Book Development and Publishing, Broadcasting and Broadcast Journalism, Print Journalism, Public Relations, Advertising, Indigenous Communication

English

English Language: Contrastive Analysis, Varieties of English, English as a Second Language, Socio Linguistics, Stylistics, Pragmatics, Discourse Analysis Phonology/Phonetics of English, Psycholinguistics, Syntax, Semantics
**Literature:** Oral Literature, African Literature in English, English Literature, Caribbean Literature, American Literature, Literature Theory and Criticism

**History:**

**Linguistics & African Languages:** Nigeria Languages, Literatures (Yoruba or Igbo), Applied Linguistics, Sociolinguistics, French Studies, Translation, Comparative Literature, Linguistics ( Phonology, Syntax, Applied Linguistics, Sociolinguistics), Yoruba Language, Yoruba Literature

**European Studies:**

**French Studies:** Translation Studies, French Literature, Caribbean Literature
Comparative Literature, Francophone African Literature

**European Studies:** Intra European History and Governance, Contemporary European Culture

**Philosophy:** Metaphysics, Epistemology, Philosophical Logic, Ethics
Traditional African Philosophy, Philosophy of the Social Science, Social and Political Philosophy, Philosophy of Science, Philosophy of Language, History of Philosophy, Philosophy of Culture.

**Theatre Arts:** Theatre History, Theatre Theory and Criticism, Arts of the Theatre – Acting, Theatre Directing, Technical Theatre and Theatre Technology; Costume and Make-up Design; Sound Design; Lighting Design; Speech and Rhetorical Arts; Music Arts; Dance and Choreographic Arts, Media Arts/Media Studies (Film/Television, Radio and Folk Arts), Theatre Management and Arts Administration, Tourism Management
Theatre for Development/Community Theatre, Educational Drama and Children’s Theatre

**(ii) Science**

**Archaeology and Anthropology:** Theory and Method in Archaeology, Pre-Historic and Historic Archaeology especially of Africa, Cultural Resources Management and Museum Science, Cultural Development Studies, Applied Anthropology

**Botany:** Ecology, Ethnobotany, Economic Botany, Biotechnology, Palynology, Lower Green Plants/Environmental Pollution Monitoring, Mycology/Fungal
Plant Anatomy, Plant Taxonomy/Biosystematics, Plant Pathology
Plant Genetics/Molecular Biology, Plant Physiology & Biochemistry.

**Microbiology:** Food Microbiology, Industrial Microbiology and Biotechnology
Environmental Microbiology, General Microbiology.
Pathogenic Microbiology

**Chemistry:** Physical Chemistry, Organic Chemistry, Inorganic Chemistry, Analytical Chemistry, Industrial Chemistry, Environmental Chemistry and Pollution Control.

**Computer Science:** Software Engineering, Data Mining, Knowledge Management, Computer Networking, Information Security, Artificial Intelligence, Knowledge Representation, Bioinformatics, Language Theory.

**Geography Science:** Climatology, Geomorphology, Biogeography (Soils and Vegetation), Land Resources Analysis and Planning, Quantitative Techniques, Geographical Information Systems, Hydrology and Water Resources.

**Geology:** Mineral Exploration (with options in Geophysics, Geochemistry and Economic/Mining Geology), Industrial Mineralogy, Geochemistry/Petrology/Soil Mineralogy, Quaternary Geology/Environmental Geology, Applied Geophysics, Petroleum Geology/Sedimentology, Micropaleontology/ Biostratigraphy, Economic Geology, Petrology/Structural Geology, Micropaleontology/Palynology, Sedimentology/Sequence Stratigraphy, Engineering Geology/ Hydrogeology.

**Physics:** Solid State Physics, Instrumentation
Meteorology and Physics of Lower Atmosphere, Radiation and Health Physics, Solid Earth Physics, Solid State Physics, Theoretical Physics.

**Zoology:** Animal Physiology, Cell Biology and Genetics, Cellular Parasitology, Ecology/Environmental Biology, Entomology, Hydrobiology and Fisheries,
Parasitology.

(iii) Basic Medical Sciences

Biochemistry: Cancer Research and Molecular Biology, Membrane Biochemistry and Biotechnology, Molecular Drug Metabolism and Toxicology, Nutritional and Industrial Biochemistry

Chemical Pathology: Nutrition and Metabolism, Reproductive endocrinology, Toxicology

Haematology: Haemoglobin, Haemostasis blood Coagulation, Platelet fibrinolysis, Anaemias with emphasis on Nutritional Anaemias, Blood Transfusions
Immunohaematology Haematological Malignancies, Enzymology especially G6PD

Physiology: Applied & Environmental Physiology, Gastrointestinal Physiology & Inflammation,
Endocrine & Metabolism Physiology, Reproduction & Developmental Programming,
Neurosciences & Oral Physiology, Cardio-Respiratory Physiology

Medical Microbiology and Parasitology: Bacteriology, Parasitology, Mycology

Virology: Diagnostic Virology, Viral Chemotherapy and Oncology, Viral Entomology Molecular Virology, Epidemiology and Pathogenesis of Virus infection
Immunology: Immunology

(iv) Clinical Medical Sciences:

Anaesthesia:

Nursing: Nursing Education, Nursing Administration, Medical/Surgical Nursing
Mental Health/ Psychiatric Nursing, Community Health Nursing, Maternal and Child Health Nursing

Psychiatry:

Paediatrics: Cardiology, Growth and Development, Endocrinology/Metabolism,
Gastroenterology/Nutrition, Genetic/Haematology, Neonatology, Nephrology, Neurology,
Oncology, Pulmonology, Paediatrics and International Child Health,

Physiotherapy: Neurological Physiotherapy, Cardio-pulmonary Physiotherapy, Orthopedic Physiotherapy, Sports and Recreational Physiotherapy

Surgery: Surgical Sciences. Bioethics (Bioethics Has dual Status – Check under Faculty of Multidisciplinary Studies)

Community Medicine: Health Metrics, Humanitarian Studies, Global Diseases and Tobacco Control,
Occupational Health Practice,

Obstetrics and Gynaecology: Fertility and Reproductive Endocrinology, Assisted Conceptions, Gynaecological Oncology (Including genetic studies)
Fetomaternal Medicine, Urogynaecology.

Otorhino-laryngology:

Ophthalmology: Embryology and Anatomy of the human Eye, Ocular Physiology,
Subspecialty Ophthalmology, Human genetics, Ocular Microbiology, Immunology,
Sterilization and sterile products, Tropical Ocular Infections.
Visual Loss in Children, Visual Loss in Adults, Computers in Medicine, Basic statistical procedures, Evaluation of drug action in man, Ocular Pharmacology,
The Eye in Systemic Diseases, Health systems development, Nuclear Medicine,
Bioethics and biotechnology, Imaging science in Surgery, Lasers and their application in Ophthalmology, Wounds, wound healing and biotechnology of tissue culture

Radiation Oncology:

Global Health:

(v) Dentistry

Dentistry: Oral & Maxillofacial Surgery, Oral Pathology, Conservative Dentistry
Child Oral Health, Prosthodontics, Orthodontics, Community Dentistry, Periodontology

(vi) Public Health

Epidemiology and Medical Statistics: Epidemiology, Biostatistics, Clinical Epidemiology, Epidemiology, Field Epidemiology Practice, Medical Demography.

Environmental Health:

Health Promotion and Education: Population and Reproductive Health Education, Reproductive and Family Health,

Health Policy and Management: Health Services Administration, Health Policy and Management.

Community Medicine: Occupational Health Practice, Occupational Nursing
Reproductive and Family Health

Institute of Child Health: Public Health Biotechnology, Social aspects of Child Health
Child and Adolescent Health

(vii) Pharmacy

Pharmaceutics and Industrial Pharmacy: Pharmaceutics, Pharmaceutical Technology, Physical Pharmacy.
**Pharmaceutical Microbiology:** Antimicrobial Agents, Natural Antimicrobial Products, Microbial Genetics, Microbial Drug Resistance and Public Health.

**Clinical Pharmacy:** Pharmacotherapeutics, Drug Interactions, Drug Utilization, Clinical Pharmacokinetics, Pharmacoepidemiology.

**Pharmaceutical Chemistry:** Pharmacokinetics and Bioavailability studies, Photochemical studies, Natural product chemistry, Pharmaceutical Analysis and drug quality control.

**Pharmacognosy:** Standardization of molecular authentication of Medicinal plants and Herbalmedicines, Biological activities of Nigerian Medicinal Plants, Tissue Culture, Phytochemistry.

**Agriculture**

**Agricultural Economics:** Resources Economics, Agricultural Business and Financial Management, Agricultural Policy and Planning, Agricultural Marketing, Production Economics and Farm Management.

**Agricultural Extension and Rural Development:** Agricultural Extension, Rural Sociology, Rural Communication, Home Economics.

**Crop and Horticultural Sciences:** Crop Production, Horticulture, Plant Nutrition, Crop Physiology, Farming Systems, Weed Science, Plant Breeding, Seed Production, Pasture Agronomy, Forage Production.

**Soil Resources Management:** Soil Science, Agricultural Mechanization, Soil Chemistry, Soil Physics and Conservation, Soil Fertility, Soil Survey and Land Use Planning, Soil Microbiology, Agrometeorology, Soil Mineralogy.

**Animal Science:** Animal Production and Management, Animal Physiology and Bioclimatotogy, Animal Breeding and Genetics, Animal Products and Processing, Agricultural Biochemistry and Nutrition.
**Crop Protection and Environmental Biology:** Crop Protection (Entomology), Crop Protection (Phytopathology), Crop Protection (Vertebrate Pest Management), Crop Protection (Weed Management), Crop Improvement (Plant Genetics), Environmental Biology (Crop Physiology), Environmental Biology (Plant Ecology), Environmental Biology (Ecotoxicology).

(ix) **Renewable Natural Resources**

**Aquaculture and Fisheries Management:**

*Aquaculture:* Water quality, Pollution and Toxicology, Fish Nutrition, Fish Biotechnology and Genetics, Fish Hatchery Management, Aquaculture Engineering, Culture Systems, Fish Post Harvest Technology and Food Safety, Fish Marketing and Product Development.

**Forest Production and Products:** Forest Ecology and Biodiversity Management, Forest Genetics and Silviculture, Forest Products Processing and Utilization, Forest Product Chemistry.

**Social and Environmental Forestry:** Forest Economics and Governance, Forest Biometrics and Information System, Urban and Environmental Forestry.

**Wildlife and Ecotourism Management:**

*Biodiversity Management:* Ecosystem Management, Biodiversity Economy, Legislation and Policy Management, Biodiversity Utilization and Management,
Biodiversity Extension Programme, Biodiversity Conservation.

(x) The Social Sciences

Geography: Geography, Water Resource Management, Geo-Information.

Political Science: Comparative Politics, International Relations, Political Sociology, Public Administration, Political Economy, Political Theory.

Psychology: Industrial and Organisational Psychology, Clinical Psychology, Personality and Social Psychology, Developmental Psychology,

(xi) Economics and Management Sciences

Accounting:

Banking Finance:

Marketing &Consumer Studies:

(xii) Environmental Design and Management

Urban and Regional Planning: Urban and Regional Planning (M.U.R.P), Housing Development and Management, Housing.
(xiii) Education

**Educational Management:** Personnel Administration in Education, Institutional Administration, Educational Systems Administration, Educational Planning and Policy Analysis, Economics of Education, Educational Management Information System (EMIS).

**Counselling and Human Development Studies:** Educational Psychology and School Counselling, Career Counselling, Adolescent Psychology and Youth Counselling, Assessment and Testing, Marriage and Family Life Counselling, Remedial and Reformatory Counselling, Clinical Psychology, STI/HIV/AIDS Counselling, Educational Psychology, Counselling Psychology, Test and Measurement, Developmental Psychology, Personnel Psychology.

**Special Education:** Speech Pathology and Audiology, Education of the Visual handicapped, Education of Gifted and Talented Children, Learning Disabilities, Education of the Deaf, Mental Retardation.

**Library, Archival & Information Studies:** Library and Information Studies, Archives, Record and Information Management, Health Information Management, Publishing and Copyright Studies.

**Social work:** Industrial Social Welfare, Social Welfare, Health Social Work, Community Development.

**Human Kinetics:** Organisation and Administration of Human Kinetics, Education and Sports, Recreation and Leisure Management, Biomechanics, Motor Learning Exercise Physiology, Curriculum, Sociology and Psychology of Sports,

**Health Education:** Health and Safety Education, School and Community Health Education, Instruction and Evaluation in Health Education,
Arts and Social Sciences Education: Curriculum Studies and Instruction, Social Studies Education, Geography, Political Science, Economics, Geography, Political Science, Economics.

School Library and Media Technology: Research in Media Resources, Media in Education, Media Services to Special Group, ICT in School Media programme, Children/Youth Library Services, School Media specialist in Curriculum Planning and Implementation Bibliotherapy in Children and Youths rehabilitation.

(xiv) Veterinary Medicine

Veterinary Anatomy: Skin Biology, Reproductive and Endocrine Biology, Neurobiology Lymphology, Immunobiology.

Veterinary Theriogenology: Veterinary Obstetrics and Gyneacology, Andrology and Artificial insemination, Small Animal Theriogenology, Large Animal Theriogenology, Wildlife and Aquatic Theriogenology, Avian Theriogenology, Assisted reproductive Theriogenology,

Veterinary Medicine: Avian Medicine, Companion Animal Medicine, Food Animal Medicine Fish and Aquatic Medicine.

Veterinary Pathology: Anatomic Pathology, Clinical Pathology, Poultry Pathology.

Veterinary Microbiology: Microbial Chemistry, Microbial Genetics, Mycology, Advanced Virology, Advanced Bacteriology A, Advanced Bacteriology B, Immunology, Biostatistics, Environmental Microbiology.

Veterinary Parasitology and Entomology: Veterinary Parasitology, Helminthology, Protozoology, Entomology, Acarology.

Veterinary Public Health and Preventive Medicine:

**Veterinary Public Health (M.V.P.H):** Advanced Meat and milk hygiene, Veterinary Biometrics, Advanced Epizootiology, Applied Veterinary Immunology, Technical Report Writing, Fish and Shellfish Hygiene, Advances in Veterinary Jurisprudence, Laboratory Diagnostic Methods, Control of Major and Emerging Zoonoses, Veterinary Environmental Health, Advances in Veterinary Extension, Abattoir Design and Management, Animal By-Products and Hazard.

**Master of Science-Epizootiology:** Advanced Epizootiology, Applied Vet. Immunology, Technical Report Writing, Disease Surveillance and Emergency Preparedness, Veterinary Biometrics, Capture Methods and Disease Control, Laboratory Diagnostic Methods, Animal by-products and HACCP.

**Veterinary Pharmacology and Toxicology:** Chemotherapy, Neuropharmacology, Toxicology, Smooth Muscle Pharmacology, Ethno-pharmacology.

**Veterinary Physiology and Biochemistry:**

**Veterinary Physiology:** Advanced Cardiology and Cardiovascular Physiology, Advanced Comparative Haematology, Gastrointestinal Physiology, Reproductive Physiology, Renal and Respiration Physiology, Environmental Physiology, Neurophysiology

**Veterinary Biochemistry:** Oncology and Molecular Biology, Nutritional Biochemistry and Biotechnology, Drug Metabolism and Toxicology.

(xv) **Technology**

**Agricultural and Environmental Engineering:** Crop Processing and Storage, Environmental Engineering, Farm Power and Machinery, Farm Structures and Environment, Soil and water Conservation.

**Wood Products Engineering:** Biomaterial Process and Utilisation, Structural Design with Wood and Biomaterials, Biocomposite Engineering, Bionergy Engineering, Pulp and Paper Engineering.
**Food Technology:** Food Microbiology, Food Processing and Preservation
Food Chemistry, Food Quality Control.

**Petroleum Engineering:** Drilling Engineering, Production Engineering, Reservoir Engineering, Natural Gas Engineering

**Biomedical Engineering:**

**Mechanical Engineering:** Thermo-fluids, Solid Mechanics, Production Engineering, Applied Mechanics, Material Technology.

**Electrical/Electronic Engineering:** Instrumentation and Control, Electrical Power Systems, Telecommunication.

(xvi) **Faculty of Multidisciplinary Studies**

**Department of Peace, Security and Humanitarian Studies:** Doctor of Philosophy (Ph.D), Master of Philosophy (M.Phil), Master of Humanitarian and Refugee Studies (M.H.R.S.), Peace and Conflict Studies (M.A.), Master of Science (MSS) Degree in Strategic Studies, Professional Master (MPBD) Degree in Peace Building and Development, Professional Master (CPM) in Cultural Production and Management, Master In Disaster Risk Management (DRM).

**Department of Sustainability Studies:** Doctor of Philosophy (Ph.D), Tourism Development, Master of Philosophy (M.Phil), M.Sc in Tourism Development, Cultural Tourism, Ecotourism, Climate of Society, Sustainable Development Practice.

**Department of Mineral, Petroleum, Energy Economics and Law:** Doctor of Philosophy (Ph.D), Master of Philosophy (M.Phil), M.Sc in (Energy Studies) Energy and

**Department of Data and Information Sciences:** Development and Evaluation of Information Systems; Information Technologies; Development Information Systems; Information Policy and Ethics; Information Resources Management; Information Products and Services; Informetrics; Information Economy and Society; Scholarly Communication in Science and Technology; Education for Information Sciences.

**Bio-Ethics and Medical Humanities:**

(xvii) LAW

**Master of Law (LL.M)**

The postgraduate degrees available in the faculty of Law are as follows:

Doctor of Philosophy (Ph.D), Master of Philosophy (M.Phil) and LL.M. The LL.M Degree Programme is conducted on an interdepartmental basis.

(xviii) **Institute of African Studies:** Doctor of Philosophy (Ph.D), Tourism Development, Master of Philosophy (M.Phil), M.Sc in Tourism Development, Cultural Tourism, Ecotourism, Climate of Society, Sustainable Development Practice

Anthropology; African History; African Law; African Music; African Visual Arts/Art History; Gender Studies, Diaspora and Transnational Studies, Traditional African Medicine and Belief Systems, Cultural and Media Studies- (a) Performance Studies (b) Literary Studies (c) Translation and Creative, Transformation Studies in Africa (TSA)

(xix) **Institute of Education**

Educational Evaluation (Programme Evaluation Option), Educational Evaluation (Test and Measurement Option), Educational Evaluation (Large Scale Assessment), Educational Evaluation (Curriculum Development and Evaluation Option)

(xx) **Centre for Child and Adolescent Mental Health (CCAMH):** Child and Adolescent Mental Health, Doctor of Philosophy (Ph.D), Master of Philosophy (M.Phil)

(xxi) **School Of Business (UISB):** Master in Business Administration (MBA) – Executive, Master in Business Administration (MBA), Agribusiness, Telecommunications, Marketing, Personnel, Finance and Accounting, Entrepreneurship and Operations Management
Business, Entrepreneurship and Executive Education

Professional Master (M.Sc in Entrepreneurship Studies)
Academic Master (M.Sc in Entrepreneurship Education)
Doctor of Philosophy (Ph.D) Entrepreneurship Education,
Master of Philosophy (M.Phil).

(xxiii) Other Programmes

(a) Doctor of Medicine (M.D.)

The degree programme is available in the College of Medicine only on part-time basis.

(i) Candidates for admission to the degree of M.D. examination must have obtained the degree of Bachelor of Medicine and Bachelor of Surgery or Bachelor of Dental Surgery of any University recognized by the Nigerian University Commission and is eligible for full registration with the Medical and Dental Council of Nigeria.

(ii) In every case, to be eligible to register for Doctor of Medicine (MD), a candidate should have a minimum of three (3) years post medical/dental professional qualification (M.B.B.S/BDS/MBChB) experience which shall include at least one year of professional experience in the specialty area of the intended study.

(b) General Regulation A.2: Registration

(i) A candidate shall be admitted to one the Departments in the College of Medicine and be registered as a candidate of that Department.

(ii) When applying for registration for the degree, the candidate shall provide evidence in writing that he had the benefit or advice from a Senior University Teacher in Medicine/Dentistry of the University (a Senior Lecturer with a M.D./Ph.D. or a Reader/Full Professor) in the field covered by the subject of the proposed thesis. Such a teacher must be acceptable to the Postgraduate Committee of the College of Medicine and the Postgraduate College.

(b) Doctor of Letters (D.Litt.), Doctor of Science (D.Sc.) and Doctor of Laws (LL.D)

Postgraduate Diploma Courses are available in the following Faculties and disciplines.
(i) Arts

Theatre Arts,
Postgraduate Diploma in
Religious Studies (PGDRS)

(ii) Science

Statistics.
Postgraduate Diploma in
Radiation Protection.

(iii) Clinical Sciences

Anesthesia,
Radiation Oncology
Postgraduate Diploma in
Radiotherapy Technology (PGDRT)

(iv) Education

Full-Time P.G.D.E.
Professional Postgraduate Diploma in Teaching in Higher Education (P.G.D.T.H.E.)
Postgraduate Diploma in Pedagogy (P.G.D.P) in the Department of Arts and Social Sciences Education.
Postgraduate Diploma in Social Work (Part-Time and Full-Time) in the Department of Social Work

(v) Institute of Education

Postgraduate Diploma in Monitoring and Evaluation

(vi) Pharmacy

Postgraduate Diploma in Drug Analysis in the Department of Pharmaceutical Chemistry.

(vii) Faculty of Agriculture

Postgraduate Diploma in

(viii) Faculty of Renewable Natural Resources

Postgraduate Diploma in Biodiversity Management in the Wildlife and Ecotourism Management,
(ix) Veterinary Medicine  Veterinary Medicine; Veterinary Parasitology and Entomology;
(x) Institute of Child Health  Professional PGD in Child Health
(x) Obstetrics & Gynecology  Postgraduate Diploma in Population and Reproductive Health (PGD POP RH).
(xi) Multidisciplinary Studies  PGD in Indigenous knowledge and Development.
(xii) Oral Dentistry  PGD in Forensic Odontology
(xiii) School Of Business (UISB)  Postgraduate Diploma in Management(PGDM)

7. Areas of Specialisation

Information on areas of specialisation in the various Degree programmes will be supplied along with application forms. Read this carefully since transfer of forms may not be entertained.

8. General Admission Requirements for Higher Degree

(a) The basic qualification for admission to all postgraduate Courses and Programmes is a first degree of the University of Ibadan or degree/Higher National Diploma of other recognized Institutions in the relevant discipline. Where qualifications are not strictly in the area of admission, remedial courses, which may lead to additional periods of studentship, may be prescribed.

In addition to individual Departmental requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five ‘O’Level credit passes at ONE sitting or 6 ‘O’ level credits at TWO sittings including English Language and subject areas for ALL disciplines and Mathematics for ALL Science-based disciplines, Educational Management and Economics and at least a pass in Mathematics
for other Social Science Courses OR Holder of NCE must have credit passes in WASC or credit or merit passes in TC II (obtained between 1967 and 1981) in English Language and four other relevant matriculation subjects.

(b) Candidates for the degree of M.Phil and Ph.D. are admitted in the first instance to the Degree of Master Programme. However, candidates who, in addition to a good first degree, and already holding acceptable postgraduate degrees, may be considered for direct admission to the M.Phil and Ph.D. Programmes.

AVAILABLE PROFESSIONAL DEGREE PROGRAMMES

A. FACULTY OF ARTS

DEPARTMENT OF COMMUNICATION AND LANGUAGE ARTS

Professional Master of Communication Arts (MCA)

Print and Broadcast Journalism
Advertising
Public Relations
Applied Communication

(i) The Programme

This programme consists of courses, taught over three semesters, leading to the degree of Master of Communication Arts (M.C.A.) in the Department of Communication & Language Arts. The following areas of emphasis are offered.

(a) Basic Language Arts (Speech, Reading and Writing including Creative and Technical Writing);

(b) Mass Communication (Print and Broadcast Journalism, Advertising and Public Relations);

(c) Book Development and Publishing; and

(d) Applied Communication (Organizational, Business, Instructional and Development Communication).
(ii) **Admission Requirements:**

Candidates for admission to the programme should hold a minimum of a first degree in any discipline from a recognised University or possess acceptable professional qualifications such as HND or other approved equivalents. Candidates must have acquired a minimum of five years post-qualification working experience, including the National Service year where applicable.

Final selection will be based on written examination and oral interview of short-listed candidates. Candidates are therefore encouraged to provide their e-mail addresses and telephone numbers to facilitate invitation for the interview.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

Applicants for admission to the Master of Industrial and Personnel Relations (M.I.P.R.) Programme must hold good honours Bachelor’s degree of the University of Ibadan or other recognized universities. Applicants with Higher National Diploma (at least upper credit) with three years work experience may apply. Higher National Diploma with Lower Credit and Five years of Experience are eligible to apply. Candidate with Third class with Professional qualification like CIPM, NIM are also eligible to apply. Selection is based on evidence that the applicant will be able to pursue creditably a programme leading to the postgraduate degree of Master of Industrial and Personnel Relations. In addition, the applicant must have work experience of at least three years. Qualified candidates with written evidence of sponsorship shall be given preference.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

Professional Master of Project Development and Implementation (M.P.D.I.)

(i) Objectives

The course aims to provide students with analytical capacities, knowledge and skills necessary to propose, plan, implement, monitor and evaluate development projects. It seeks to enhance skills and knowledge in specialist functional areas such as social, economic and infrastructural development. It focuses attention on the characteristics of projects specific to developing countries and their links to the use of appropriate technology and sustainable processes. It also aims to develop an appreciation of the role of research in proposing, managing and evaluating projects.
(ii) **Admission Requirements:**

a. Candidates for admission shall be holders of a Bachelors Degree, with a minimum of Second Class Lower Division, or the **Higher National Diploma (Upper Credit)**, (2) **Higher National Diploma Lower Credit With Five Years Work Experience** and **Third Class Degree with Five years work Experience** from any Institution recognised by the Senate of the University of Ibadan.

b. Candidate must have requirement of years of post-qualification work experience.

c. Candidates must have a demonstrated track record of experience in infrastructural or human development project activities, or involvement in policy design relating to development projects.

d. In addition, candidates must provide evidence of sponsorship or availability of support for the programme.

e. Candidates must satisfy the matriculation requirements of the University of Ibadan, including a Credit grade in English Language and a Pass in Mathematics at the O level examination or its equivalent.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

(iii) **Course Duration**

The course duration is for a minimum of three semesters and a maximum of five semesters for full-time students. Part time students are expected to spend a minimum of five semesters and a maximum of seven semesters.

**Professional Master of Social Policy (MSP)**

(i) **Objectives**

The objective of the proposed Master’s Degree programme in Social Policy is to train qualified individuals in the essentials of social policy for societal advancement. The programme will research and train candidates in appropriate approaches to successful policymaking and practice, and also ensure town and gown collaboration in policy initiative and implementation. Also, the programme will employ historical, indigenous and modern epistemologies in theoretical and empirical research with the ultimate aim of arriving at the best policy practice for human and social progress. The programme would produce graduates who will serve as social policy specialists and professionals in the public and
private sectors, NGOs and international organizations with the guiding objective aimed at national and international advancement.

As such, the programme would train students in **social policy aspects** of:

1. Community Development
2. Population Management
3. Health Systems
4. Crime and Penology
5. Poverty and Social Protection
6. Gender and Social inclusion
7. Gerontology
8. Programme Planning, Management and Evaluation
9. Educational Policy
10. Agriculture and National Development
11. Oil, Gas and Sustainable Energy
12. Environment and Climate Change

(ii) **Admission Requirements**

To be eligible for admission into the M.SP. Social Policy programme, and without any prejudice to the rules and regulations governing the award of postgraduate degrees of the University of Ibadan, a candidate shall:

Possess at least **2nd Class honours Lower Division** in the Social Sciences, Economic Sciences, Arts, Education, Sciences (Agricultural Science, Natural Sciences, Mathematical Sciences, Medical Sciences and Engineering) or Management Science from University of Ibadan or any other University recognised by the Senate of the University of Ibadan.

(a) Prospective candidates must have NYSC discharge certificate (for Nigerian graduates only).
(b) All candidates must fulfill other basic requirements as stipulated by the Postgraduate College of the University of Ibadan.

(iii) **Course Duration**

The course duration is for a minimum of three semesters and a maximum of five semesters for full-time students. Part time students are expected to spend a minimum of five semesters and a maximum of seven semesters

**Professional Master in Employment Relations and Human Resources Management (ER&HRM)**

**Admission Requirements**
To be eligible for admission into the Professional Master in Employment Relations and Human Resource Management programme and without any prejudice to the rules and regulations governing the award of postgraduate degrees of the University of Ibadan, a candidate shall possess five credit passes including English Language and Mathematics at the ‘O’ level. iv. B.L.I.S., B.Ed., B.A., B.Sc., with a minimum of 3rd Class

v. H.N.D. – with at least 3 years post qualification experience

The degree of Master in Media Resource Management is to produce professionally qualified media specialists to run the school library media centres at the primary and secondary school levels, manage the state and national education resource centres, establish and run the resource centres for the external study programmes, the Media houses and National Information Centres. They can also be employed as librarians in libraries. The degree of Master in Media Resource Management is subject to the University regulations governing higher degrees.

DEPARTMENT OF DATA AND INFORMATION SCIENCE

Professional Master of Information Resources Management (MIRM)

Corporate Knowledge Management

Database Design and Administration

Web Application Development

Information Management Practice

(i) Objectives:

This is a professional programme that aims to:
Develop the students’ knowledge and skills for professional careers in information technology and systems and management positions in the information industry.

b) Produce graduates with generic data, information, knowledge and information technology management skills, along with specialized knowledge and skills in specified areas in the information industry.

c) Produce graduates with adequate versatility, innovativeness and confidence to assume leadership positions at middle to top managerial position in the information industry.

Target Group

University graduates or higher national diplomats, or equivalents who are interested in pursuing professional and managerial careers in the information sciences, technology and systems.

(ii) Admission Requirements:

Applicants to the programme must possess any of the following minimum qualifications, or equivalents, obtained from institutions approved by Senate:

a) Second Class honours degree in any discipline;

b) Third Class in any discipline, plus an academic or professional master’s degree in any discipline.

c) Higher National Diploma (HND) at Upper Credit classification.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

(iii) Duration and Mode of Study

The programme will normally last for a minimum of five and a maximum of eight semesters of part-time study.

Please note that the part-time does not mean weekend only programme but lesser workload per semester than the full-time
FACULTY OF AGRICULTURE

DEPARTMENT OF FOREST PRODUCTION AND PRODUCTS

Professional Master of Agroforestry (M.A.F.)

(i) Programme:
This is a two-year Master’s degree programme. It combines both course work and project research. Candidates will be required to undertake field research lasting between 3 and 9 months at the end of which a dissertation will be written and submitted for assessment. The Professional Master of Agroforestry is a terminal Degree.

(ii) Admission Requirements:
The Professional Master of Agroforestry is open to candidates with Second Class (Lower Division). Third Class or Pass Degree or Higher National Diploma Degree in the relevant subject area.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

DEPARTMENT OF WILDLIFE & ECOTOURISM MANAGEMENT

Postgraduate Diploma in Biodiversity Management (PGDBM)

(i) Admission Requirement:
Applicants will be required to have either a minimum of first degree in Agriculture, the Sciences, Forestry, Wildlife Management, Fisheries Management and Conservation and Tourism Management of the University of Ibadan or any other recognized Universities.

Or an HND (with O’ level Credit Pass in English and Mathematics) in Tourism, Agriculture, Sciences, Forestry Wildlife Management, Fisheries Management and three years relevant experience.
In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.
FACULTY OF TECHNOLOGY

DEPARTMENT OF ELECTRICAL & ELECTRONIC ENGINEERING

Professional Master of Science in Microprocessor & Control Engineering

(i) The Programme:

The Professional Master’s degree (M.Sc.) in Microprocessor and Control Engineering is aimed at providing suitably qualified candidates with a deeper understanding and a longer practice in the fields of Microprocessor and Control Engineering.

The programme will also be useful in updating the knowledge of professional Engineers in the fields of Electronics & Control Engineering.

(ii) Admission Requirements:

(a) Admission to the programme shall be open to the graduates of the University of Ibadan or other Universities recognised by the Senate who possess a good honours degree in Electrical/Electronic Engineering or other related disciplines such as Physics, Physics with Electronics and other Engineering courses. Candidates with HND upper credit and above/equivalent qualifications in Electrical/Electronic Engineering with industrial experience of not less than ten (10) years may be considered for admission.

(iii) Duration

The professional M.Sc. programme shall last a minimum of three semesters.

DEPARTMENT OF MECHANICAL ENGINEERING

Professional Master of Science in Energy Technology and Management

(i) Admission Requirements:

Candidates for admission into the programme shall be first degree holders in engineering of the University of Ibadan or other Universities recognized by the Senate of the University of Ibadan.

Candidates with the Postgraduate or equivalent professional qualification in engineering or related disciplines and who have had at least two years of
relevant industrial experience shall also be considered for admission. Candidates must fulfill all admission requirements for matriculation into the University of Ibadan.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

(ii) Duration of the Programme

The duration of the programme shall be a minimum of three and a maximum of five semesters for the full time students while part-time students will normally be expected to spend a minimum of five and a maximum of seven semesters.

DEPARTMENT OF AGRICULTURAL AND ENVIRONMENTAL ENGINEERING

Professional Master in Mechanization and Post Harvest Technology (M.ScMPT)

(i) Duration of the Programme:

The minimum period study is three (3) semesters for full-time and five (5) semesters for part-time. The maximum time required for graduation is five (5) semesters and seven (7) semesters for full-time and part-time respectively.

(ii) Admission Requirements

Graduates holding at least a first degree in Engineering, Science, Agricultural and food related disciplines. Candidates with a good honors degree in less relevant subjects but with relevant working experiences may be considered. In all circumstances, evidence of relevant in-service training will be an advantage. HND holders with Postgraduate Diploma in relevant disciplines and minimum of three (3) years post-qualification experience will also be considered.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two
sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

DEPARTMENT OF WOOD PRODUCTS ENGINEERING

Professional Master in Furniture and Interior Design (MFID)

(i) The programme

Applicants shall be required to have a first degree (with a minimum of Third Class (Honours) in wood Products Engineering, Chemical Engineering, Civil Engineering, Industrial &production Engineering, Mechanical Engineering, Architecture, Forestry, wood Technology, Industrial Design, or other relevant discipline. Relevant working experience would be advantage. HND holders in the afore-mentioned discipline may also be considered for admission.

(ii) Admissions Requirements

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

DEPARTMENT OF INDUSTRIAL AND PRODUCTION ENGINEERING

Professional Master of Engineering Management (M.E.M)

(i) The programme

The Professional Master of Engineering Management (M.E.M) Programme provides a blend of advanced engineering and business education aimed at preparing Engineers for effective participation in the management of engineering and technology-based organization as well as management of technological change. The programme is structured such that candidates can specialize in any of the following options: Ergonomics and Safety Management, Logistics and Supply Chain Management, Project Management, or Maintenance Management.

(ii) Admission Requirements

Applicants should normally possess an engineering honours degree from a recognized University with a minimum of two (2) years post graduation work experience.
HND graduates with a minimum of 5 years work experience may be considered.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

(iii) **Duration of study**

*Full Time:* The duration of the programme shall be a minimum of three semesters for the full-time students

*Part Time:* The duration of the programme shall be a minimum of five semesters for the part-time students.

**DEPARTMENT OF CIVIL ENGINEERING**

**Professional Master of Science in Construction Project Management (M.Sc. CPM)**

(i) **The Programme**

The programme aims to enhance candidates’ understanding of managing projects for construction professionals in practice and client organisations, helping to support them in their professional capacity to contribute to the successful and timely delivery of construction projects. Candidates shall be motivated and equipped to play leading roles in construction projects management, engage effectively in improving the process through which companies, practices and projects are managed, and which in turn, manage the creation of the built environment.

(ii) **Admission Requirement**

A minimum of Second Class Degree (Lower Division) from a recognised University, in relevant subject areas and at least two years cognate work experience. Applications may be considered from candidates who have Higher National Diploma with a minimum of Lower Credit and at least four year’s experience in the Construction Industry at the Management level.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

(iii) **Duration of Course**

The duration of the programme shall be a minimum of three semesters of full-time study or five semesters of part-time academic work.

(iv) **Collaboration**
The University of Ibadan has separate collaborative agreements with the University of West of England (UWE) and University of Wolverhampton (UoW), both in the UK based on Credit Recognition regarding the programme. Course credits may be transferred from the award of the degree of the respective universities. Successful candidates are to spend at least one Semester in UWE or UoW. However, candidates must satisfy the requirements governing the award of degrees in the particular institutions elected. Candidates interested in undergoing the programme fully in the University of Ibadan may also apply. Those who intend to obtain either the Postgraduate Certificate (PGC) or/and Postgraduate Diploma (PGD) should apply for only the UoW programme. Such candidates for PGC and PGD need not have post-graduation experience. The PGD obtained from UoW can be used for admission into the M.Sc. CPM of UoW.

DEPARTMENT OF BIOMEDICAL ENGINEERING

Professional Master of Biomedical Engineering

Admission Requirements

- Candidates for admission into the Academic Master's Degree programme shall be first degree holders (minimum of Second Class Lower) in Engineering, Sciences, Veterinary Medicine, Medicine, Dentistry and Clinical Sciences of the University of Ibadan or of other Universities recognised by Senate of the University of Ibadan. Those to be admitted for the Professional Master's Degree Programme should have a minimum of HND Lower Credit. Holders of Higher National Diploma may also apply for Postgraduate Certificate or Postgraduate Diploma programme. Candidates must fulfil all admission requirements for matriculation into the University of Ibadan.

- Admission to the programme shall normally be at the beginning of each academic session. All registration formalities shall normally be done at the beginning of the first semester as required by the University for Postgraduate training.

Programme Duration

The duration of the programmes shall be as follows:

(i) Postgraduate Certificate- a minimum of one semester and a maximum of four semesters for the full time students while part time students will normally be expected to spend a minimum of two semesters and a maximum of four semesters.

(ii) Postgraduate Diploma- a minimum of two semesters and a maximum of four semesters for the full time students while part time students will normally be expected to spend a minimum four semesters and a maximum of six semesters.

(iii) Master's- a minimum of four semesters and a maximum of six semesters for the full time students while part time students will normally be expected to spend a minimum of
The philosophy of the programme is to produce healthcare professionals who will provide health care using locally available resources. The programme will bring to bear the knowledge of Science and Technology for sustainable development of herbal medicine in Nigeria and in the West African sub-region. The programme will focus heavily on standardisation of herbal products, introduction of good manufacturing and formulation practices and also bring to the knowledge of practitioners the wealth of standardised, safe and efficacious phytomedicines already in clinical practice within and outside the country.

(ii) Objectives

(i) To train the students in the art of modern medicine practice by bringing Science and Technology to bear on the practice in Nigeria.

(ii) To motivate the students towards herbal drug production as trained herbal producers thereby increasing the inventory of available drug products in the country and gradually creating a credible Nigeria herbal drug industry.

(iii) To offer training in good manufacturing practices and standardization in order to enhance safety, potency and quality of herbal products.

(iv) To introduce graduates and qualified practitioners of Herbal medicine to scientific techniques of medicinal plant quality assurance.

(iii) Admission Requirements:
Candidates for the Postgraduate Diploma in Herbal Medicine must fulfill the requirements of the Postgraduate College of the University of Ibadan as well as meet one of the requirements (a or b) specified below and any other conditions that may be required by the University of Ibadan Postgraduate School from time to time.
A first degree in Pharmacy, Medicine, Nursing, Botany, Chemistry, Biochemistry, Microbiology, Agriculture/Forestry, Zoology and other acceptable science related disciplines of the University of Ibadan or any other recognised University.

Higher National Diploma (HND) at least Lower Credit in acceptable science – based courses.

CENTRE FOR DRUG DISCOVERY, DEVELOPMENT AND PRODUCTION

Professional Master of Drug Development and Regulatory Pharmacy (MDDRP)

(i) The Programme

The aim of this programme is to provide professionals working within the pharmaceutical industry, government, academia, and relevant professions with core knowledge of the scientific, regulatory, clinical, ethical, and social issues relevant to the discovery, development, production, evaluation, registration, and promotion of medicines. The Programme also aims at building capacity to enhance local manufacturing and availability of prequalified facilities for drug manufacturing under internationally acceptable regulatory guidelines. The social goal of the programme is to improve the quality of health care by developing and promoting skills that hasten the development and supply of new therapeutic agents, and to assist in optimising the use of existing medicines and devices in order to maximise their benefits and minimize risks.

(ii) Admission Requirements

Candidates for admission for the Masters’ degree in Drug Development and Regulatory Pharmacy (MDDRP) must fulfill the requirements of the Postgraduate College of the University of Ibadan as well as meet the requirements specified below and any other conditions that may be required by the University of Ibadan Postgraduate College from time to time.

A first degree (minimum of second class lower) in Pharmacy, Medicine, Veterinary Medicine, Nursing, Botany, Chemistry, Biochemistry, Microbiology, Biology, Physiology, Anatomy, Agriculture/Forestry, Agric. Engineering, Mechanical Engineering, Chemical Engineering, Petroleum Engineering, Food Technology, Zoology and other acceptable science related disciplines of the University of Ibadan or other recognised universities are eligible to apply. Work experience in pharmaceutical industry or medicine regulatory agency is an added advantage. Candidates must also satisfy the O’level requirements for their respective degree programmes in accordance with University of Ibadan regulations; that is five O’level credit passes at one sitting or six
O’level credit passes at two sittings including English Language and any other science subjects.

CENTRE FOR DRUG DISCOVERY, DEVELOPMENT AND PRODUCTION

Postgraduate Diploma in Drug Development

(i) The Programme

The aim of this programme is to provide professionals working within the pharmaceutical industry, government, academia, and relevant professions with core knowledge of the scientific, regulatory, clinical, ethical, and social issues relevant to the discovery, development, production, evaluation, registration, and promotion of medicines. The Programme also aims in building capacity to enhance local manufacturing and availability of prequalified facilities for drug manufacturing under internationally acceptable regulatory guidelines. The social goal of the programme is to improve on the quality of health care by developing and promoting skills that hasten the development and supply of new therapeutic agents, and to assist in optimizing the use of existing medicines and devices in order to maximise their benefits and minimise risks.

(ii) Admission Requirements

Candidates for admission for the Postgraduate Diploma in Drug Development (PDDD) must fulfill the requirements of the Postgraduate College of the University of Ibadan as well as meet the requirements specified below and any other conditions that may be required by the University of Ibadan Postgraduate College I from time to time.

a) A first degree (minimum of a third class) in Pharmacy, Medicine, Veterinary Medicine, Nursing, Botany, Chemistry, Biochemistry, Microbiology, Biology, Physiology, Anatomy, Agriculture/Forestry, Agric. Engineering, Mechanical Engineering, Chemical Engineering, Petroleum Engineering, Food Technology, Zoology and other acceptable science related disciplines of the University of Ibadan or other recognised university.

b) Higher National Diploma (HND) (at least Lower Credit) in acceptable science-based subjects.

c) Candidates must also satisfy the O’level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-
graduates), or six O’level credit passes at two sittings including English Language and any other science subjects for others.

DEPARTMENT OF PHARMACEUTICAL CHEMISTRY

Postgraduate Diploma in Drug Analysis (PGDDA)

The programme shall be designated Postgraduate Diploma in Drug Analysis (PDDA).

Objectives

- To provide practicing analytical scientists with the opportunity to enhance their capability and leverage in the performance of their professional duties.
- To satisfy the consumer needs of the Nigerian Pharmaceutical Industry as the programme aims at producing on a regular basis the requisite manpower at this specialist level that can serve the needs of the Pharmaceutical Industry.
- To enhance their pre-qualification profile for recognition as analysts by regulatory bodies.

FACULTY OF PUBLIC HEALTH

DEPARTMENT OF ENVIRONMENTAL HEALTH SCIENCES

Professional Master in Safety, Health and Environment (MSHE)

The Professional Master’s in Safety, Health and Environment is designed mainly/principally to produce Safety Practitioners who will be able to identify, assess and solve safety, health and environmental problems which arise in the workplace through the principles of good management practices. It is geared towards providing higher capacity skilled manpower, trained specifically for promoting health and preventing illness through applying scientific skills for better management of environmental hazards.

The long-term objectives of the programme are to:

1. produce graduates with requisite skills to identify hazards in the work place.
2. train graduates on design strategies for preventing and controlling hazards in the workplace so as to minimise injuries and associated health effects.

3. equip graduates with modern techniques of industrial hygiene and good manufacturing practices (GMP).

4. turn out graduates with relevant skills in risk communication and management.

5. produce high level manpower with sound knowledge and capacity to handle environmental audit in the work place.

Target Groups

The Professional Master’s in Safety, Health and Environment, is intended to attract students from all over Africa and beyond. The target groups are industry workers who are in the Health, Safety and Environment (HSE) Departments as well as those in related Departments. Other categories of persons targeted for the course include Managers of HSE firms and other environmental agencies that require higher degree for career advancement.

Duration

The course shall be run as a full-time Professional Masters programme. The duration for the completion of the course shall be three semesters.

Admission Requirements

Applicants for the programme must satisfy the matriculation requirements of the University of Ibadan for their cognate disciplines.

Other requirements:

a. Candidates for admission shall be holders of first degree from the University of Ibadan or other Universities approved by the Senate of the University in the Sciences, Social Sciences and Engineering. Candidates with Higher National Diploma (Upper Credit) in relevant fields shall
be considered for Admission. Possession of Postgraduate Diploma in relevant fields shall be an added advantage.

d) Candidates eligible for admission should be currently employees of industries and other related agencies and organisations. Independent candidates must have cognate post-graduation experience of minimum of three years. In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’level credit passes at two sittings including English Language and other relevant science subjects.

**Professional Master of Public Health (M.P.H.) In Environmental Health**

**(Department of Environmental Health Sciences)**

Environmental health is a multidisciplinary subject and cuts across all sections and all levels of society. There is a growing public awareness on the need for environmental pollution control and protection of populations from the impact of environmental hazards. Environmental problems are hitherto being tackled by specialist groups belonging to a variety of disciplines in isolation. There is the need to train professionals at an advanced level using a multidisciplinary approach. The programme is thus intended to train people with various backgrounds in science, engineering and social sciences to tackle the most commonly occurring environmental problems with a view to safeguarding the health of communities.

**(i) Aims and Objectives:**

To prepare at Master’s degree level public health practitioners with specialisation in Environmental Health to undertake:

Administration, policy formulation, planning, direction and evaluation of environmental health activities, particularly in Ministries of Health, Environment, Works and Housing, Education, Manufacturing Industries, and others dealing with Environment.

Teaching of environmental health in Universities, Institutions, Schools of Health, Technology, other Schools and in communities.
Challenging tasks in Local Governments, industries and organizations to alleviate the environmental problems.

Research to improve the quality of environment and to prevent diseases in communities and work places.
Liaison with health-related agencies concerned with environmental problems and to introduce environmental health education.

(ii) Admission Requirement:

Candidates for admission to the degree shall normally be graduates of this University or any other Institution recognised by the Senate of the University of Ibadan.

A Bachelor's degree in the Sciences viz Chemistry, Microbiology, Botany, Geology; Applied Sciences viz Geography, Biochemistry, Physiology, Pharmacy, Pharmacology; Medicine/Medical Sciences; and Technology particularly Civil and Chemical Engineering(with at least a 2nd class). Other related disciplines may be considered depending on the level of competition and availability of space.
Experience in health, education, social welfare or other appropriate Ministry, Agency or Institution may be an added advantage.

Applicants with additional postgraduate experience shall have added advantage.

DEPARTMENT OF EPIDEMIOLOGY AND MEDICAL STATISTICS

Professional Master of Public Health (M.P.H) in Field Epidemiology

Admission Requirements

The course is open to medical graduates of recognised Universities. Graduates of the applied medical sciences with a minimum of Second Class Upper Degree qualifications will also be considered for the course. Such candidates with other qualifications must have demonstrable track record of experience in the practice of Public Health and Epidemiology. All candidates will be invited for an admission interview. Prospective candidates must have obtained a NYSC certificate or an exemption and must provide evidence of sponsorship or availability of support for the course. However, graduate of Anatomy, Physiology, Biochemistry, Zoology and Botany will not be considered for admission and therefore need not apply.

(ii) Work experience:
The candidate must have served in health, education, or social welfare agency/ministry for a minimum period of two years continuously after having received his or her basic degree.

**Professional Master of Public Health (M.P.H) in Field Epidemiology Practice**

This programme fashioned after the Epidemiology Intelligence Service has the broad goal to foster professional development of practicing epidemiologists at national, state, and local government departments of health. The programme is organized in collaboration between the University of Ibadan; United States Centre for Disease Control and Prevention and Federal Ministry of Health. Other collaborators are the Ministry of Agriculture and Natural Resources and other international agencies. The programme has three tracks which are: MPH medical Epidemiology (MPHMEP), MPH Laboratory Epidemiology (MPHLEP), MPH Veterinary Epidemiology (MPHVEP).

**General Admission Requirements for all track in field epidemiology practice:**
- Must be currently employed by a Federal, State, or Local Government Department, agency or parastatal.
- Must show evidence of release to pursue the programme.
- Must have been confirmed or working for at least 2 years current employment.
- Must have at least a credit in English at O’levels.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’level credit passes at two sittings including English Language and other relevant science subjects.

- **MPH Medical Epidemiology (MPHMEP)**

This kart is open to medical graduates of recognised Universities.

**Specific Requirements:** for each track.

**(ii) MPH Laboratory Epidemiology (MPHLEP):**

This tract is open for graduates of the medical and laboratory sciences who has obtained a minimum of second class honours from a University recognized by the Senate of the University of Ibadan. Candidates must
possess the professional registration of the Institute of Medical Laboratory Sciences of Nigeria.

(iii) **MPH Veterinary Epidemiology (MPHVEP)**

This track is open for graduates of Veterinary Medicine from a recognised University.

**Professional Master of Public Health (M.P.H) in Medical Demography**

The programme offers broad training in the principles, theories and methods of Demography with particular applications to reproductive health, population change in relation to health and socio-economic development.

(ii) **Admission Requirements:**

The course is open to graduates with MBBS or its equivalent and graduates of Mathematics, Statistics and Social Sciences such as Demography, Geography, Sociology and Actuarial Science of the University of Ibadan or any other University recognised by the Senate of the University of Ibadan.

Graduates of Mathematics, Social Sciences and Sciences should have a minimum of a second-class lower division to qualify to be considered for the course. However, candidates must have demonstrable track record of experience in practice of Public Health, Statistics, Population and Reproductive Health.

**Professional Master of Public Health (M.P.H) in Monitoring & Evaluation**

**Requirements**

The course is open to all graduates in the Statistics, Mathematics, Computer Science, Health and Social Sciences of the University of Ibadan or any other recognized university with a minimum of 2nd class honours lower division. Candidates with a third (3rd) class or Higher National Diploma (HND) in any of the stated disciplines listed above may also be considered. Prospective candidates must have obtained an NYSC certificate or an exemption and preferably show evidence of sponsorship for the course. Applicants currently employed in Public Health organisations or institutions are encouraged to apply. In addition, candidates must pass the postgraduate College English language proficiency test. Experience in planning, implementing, monitoring and evaluation of health programmes are advantageous. International applicants from Africa and the rest of the world who are currently serving public and non-public agencies in their respective countries are encouraged to apply.
Applicants must possess five (5) credits in related subjects at only one sitting (WASC/GCE/SSCE). The subjects should include English, Mathematics, and three other subjects.

**Duration and Mode of Study**

The Programme will be on part-time mode on weekend basis (Friday and Saturday). The Programme will be completed in 5 semesters and maximum of seven (7) semesters of the University. The course work and field-based practical activity are designed to be completed in four semester-year while the last semester could be used to undertake MPH evaluation project report.

**DEPARTMENT OF HEALTH PROMOTION AND EDUCATION**

**Professional Master of Public Health (M.P.H.) in Population and Reproductive Health Education.**

(i) **Objectives**

The main objective of this programme is to broaden the knowledge and competence of graduates in core areas of Population and Reproductive Health Education.

Specific objectives are:

(i) The programme is designed to apply knowledge from health and related disciplines to the understanding and promotion of health and its determinants.

(ii) Graduates would acquire expertise that will enable them

   (a) Assume leadership positions in private and public sectors including education institutions.

   (b) Provide services such as consultation, research, teaching and technical assistance requiring advanced competences in Population and Reproductive Health Education.

   (c) Formulate policies relating to Population and Reproductive Health Education.

(ii) **Admission Requirements:**

a. Candidates for admission shall be holders of:
(i) Bachelor’s degree in Medicine and Surgery (M.B.B.S) of the University of Ibadan or other Institutions recognized by the Senate and

(ii) Bachelor’s degree (not below second class lower division) in Nursing, Biological Sciences, Social Sciences, Law and Education with adequate working experiences and demonstrated interest in Population and Reproductive Health Education.

b. The programme has both the full-time and part-time mode of admission.

(i) The full-time admissions shall be offered to candidates who satisfy the Postgraduate College regulation or evidence of release by their employers to undertake full-time studies for candidates on full employment. Candidates found to have made false declaration in this respect shall be asked to withdraw from the University.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’level credit passes at two sittings including English Language and other relevant science subjects.

In addition to the qualifications applicants must have adequate working experience relating to health promotion and education acquired during OR after the NYSC period. Working experiences are assessed at the Departmental Interactive session and/or oral interview with applicants.

DEPARTMENT OF HEALTH PROMOTION AND EDUCATION

Professional of Master of Public Health (M.P.H.) In Health Promotion and Education.

(i) Admission Requirements:

Candidates for admission shall be holders of:

(a) Bachelors degree in Medicine and Surgery (M.B.B.S) of the University of Ibadan or other Institutions recognized by the Senate
(b) Bachelor’s degree (not below second class lower division) in Nursing, Pharmacy, Biological Sciences, Health related sciences, Law, Public Health, Social Sciences and Education with demonstrated interest in Health Promotion and Education.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (undergraduates), or six O’level credit passes at two sittings including English Language and other relevant science subjects.

(c) In addition to the qualifications applicants must have adequate working experience relating to health promotion and education acquired during OR after the NYSC period. Working experiences are assessed at the Departmental Interactive session and/or oral interview with applicants.

DEPARTMENT OF COMMUNITY MEDICINE

Professional Master of Public Health (MPH) in Reproductive and Family Health

(i) Objectives:

The main objective of this programme is to broaden the knowledge and competence of graduates in core areas of Public Health with emphasis on Reproductive and Family Health.

(ii) Admission Requirements:

Candidates for admission shall normally possess Medical, Health Sciences or Social Sciences degrees from the University of Ibadan or other approved Universities recognised by senate with a minimum of Second Class Lower division. Post qualification experience shall be an advantage.

a) In addition applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of
Medicine and Pharmacy (under-graduates), or six O’level credit passes at two sittings including English Language and other relevant science subjects including English Language and Mathematics.

**Duration:**

The programme will be run for eighteen months with pre-determined and final project defense dates.

**DEPARTMENT OF HEALTH POLICY AND MANAGEMENT**

**Professional Master of Health Services Administration (M.H.S.A.)**

The M.H.S.A. degree focuses on the administration and management of public and private health sector institutions. It prepares candidates to work as health administrators, planners and managers in health systems and institutions such as hospitals, health maintenance organizations and health insurance companies.

1. **Objectives:**

   This programme aims at the improvement of health services through better administration of human, material and financial resources.

2. **Admission Requirements:**

   (a) Bachelor’s degree in Medicine, Dentistry, Pharmacy, other Health Science or the Social Sciences of the University of Ibadan or of other approved Universities, recognised by the Senate, with a minimum of 2nd class honours (lower) division.

   (b) Cognate, practical experience in the administration of health services will be an added advantage.

**DEPARTMENT OF HUMAN NUTRITION AND DIETETICS**

**Professional Master of Public Health (M.P.H.) in Population and Reproductive Health Nutrition**

1. **Objectives:**

   This programme is designed to enable participants acquire a better understanding of the relation between Population, Nutrition and Reproductive Health. The programme is also to produce graduates that have expertise to assume leadership roles in private and public sectors including educational institution and provide services such as consultation, research
including surveys, teaching and technical assistance that require advanced competence in Population, Nutrition and Reproductive Health.

(ii) **Admission Requirements:**

Candidates should hold Bachelor’s Degree (not below Second Class Lower Division) in Human Nutrition, Nutrition and Dietetics, Biochemistry, Food Science, MBBS, and other relevant disciplines of the University of Ibadan or any other University recognised by the Senate of the University of Ibadan. In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the College of Medicine, University of Ibadan i.e. ‘O’ Level credit passes in five subjects at ONE sitting including English Language, Mathematics, Physics, Chemistry and Biology.

(iii) **Status:** The programme is both academic and professional.

Professional Master in Human Nutrition and Dietetics (M.H.N.D.)

(i) **Objective:**

This programme will produce nutritionists and dieticians with advanced knowledge, skills and practical experience required in the prevention and management of diet-related diseases in government and non-governmental agencies. The programme is also designed to remedy deficiencies in knowledge and skills in dietetics practice especially for candidates with a third class or Higher National Diploma in Human Nutrition, Nutrition and Dietetics.

(ii) **Admission Requirements:**

Candidates for admission should possess a B. Sc. Degree with a minimum of Third Class in Human Nutrition or Nutrition and Dietetics of the University of Ibadan or other Institutions recognised by the Senate with at least one-year post qualification experience. Holders of the Higher National Diploma (HND) in Human Nutrition or Nutrition and Dietetics with minimum of lower credit are eligible to apply. In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the College of Medicine, University of Ibadan i.e. ‘O’ Level credit passes in five subjects at ONE or SIX credit at twos sitting including English Language, Mathematics, Physics, Chemistry and Biology.

(iii) **Status:** The programme is a full time professional degree.

INSTITUTE OF CHILD HEALTH
Professional Master of Public Health (M.P.H.) in Child and Adolescent Health

(i) Admission Requirements:

Candidates should hold:

**Duration:**

The programme will be run for eighteen months with pre-determined and final project defense dates.

DEPARTMENT OF PSYCHIATRY

Professional Master of Science in Psychiatry

(i) **Objectives:**

The main objectives are:
(a) To provide advanced training in psychiatric theory and research methodology. The programme shall provide the advanced theoretical knowledge necessary for academic psychiatrist and impart the skills required for the understanding and conduct of research in bio-behavioural medicine;

(b) To stimulate interests and confidence in the conduct of research in mental and behavioural sciences;

(c) To set the graduate on a course of life-long interest in seeking cutting-edge and up-to-date information in the fields of psychiatry and behavioural sciences and

(d) To prepare the graduates for a career in academic and clinical psychiatry.

(ii) Admission Requirements:

(a) Candidates for admission to the programme shall normally be M.B.B.S. graduates of the University of Ibadan or of other Universities/Institutions recognized by the Senate.

(b) Candidates must have completed both the pre-registration internship and the National Youth Service.

(iii) Duration:

The programme shall be designated: Master of Science (M.Sc.) in Psychiatry. It shall run for a minimum of three semesters full-time and five semesters part-time.

DEPARTMENT OF OBSTETRICS & GYNAECOLOGY

Professional Master of Health Science (M.H.S) in Population and Reproductive Health

Candidates for admission to this programme shall be holders of Medical Degree (M.B.B.S.) of a good first degree in Health or the Social Science of this University or other Universities recognised by the Senate of the University of Ibadan. Candidates with Diploma in related health or Social Science Subjects (equivalent to HND at upper credit level) and five years minimum experience in a relevant field may be considered.

Candidates must fulfill the other entry requirements of the University of Ibadan for Higher Degree courses.

The programme shall last minimum of three semesters and maximum of five semesters for full-time students and minimum of five semesters and maximum of seven semesters for part time students including course works and projects.
**Postgraduate Diploma in Population and Reproductive Health (PGD)**

Candidates for admission to this programme shall be holders of Medical Degree (MBBS) of a recognised good first degree in Health or Social Science of this University or other Universities recognised by the Senate of the University of Ibadan. Candidates with Higher National Diploma (HND) or its equivalent, NRN/SRM with at least two years experience in related health or social sciences may be considered.

Candidates must fulfill the other entry requirements of the Universities of Ibadan for Higher Degree Courses.

The programme shall last two semesters for full time students and four semesters for part-time students including course work project and three months of field work internship.

**MASTER IN BIOMEDICAL EDUCATION**

*(Department of Surgery)*

- **Objectives:**
  This training programme is designed:

  - to produce graduates who are knowledgeable in curriculum development
  - to produce highly qualified graduates with sound basic and applied teaching skills
  - to improve the methods of evaluation of teachers in the biomedical sciences

*(ii) Admission Requirements:*

Graduates of the College of Medicine of the University of Ibadan and those of the Colleges and Faculties of Medicine and Health Sciences of the West African consortium, and others in the biomedical sciences from University of Ibadan and from other Universities approved by Senate of University of Ibadan are eligible for admission into the programme.

Students will be admitted to the M.Sc programme in accordance with the regulations and requirements of the University of Ibadan.

Applications will be sought from the staff at each of the six participating universities (and teaching hospitals) in the West African consortium, but applications will only be considered if the applicant is also nominated by the Dean of his/her home institution.
Candidates for the M.Sc (Biomedical Education Methods) programme are required to complete their registration formalities within the period stipulated by the Postgraduate College of University of Ibadan.

(iii) **Duration:**

The duration of the programme shall normally be four semesters. There are two semesters in one session. It shall be run as a distance learning course. Lecture delivery and other interactions shall be mostly through distance and e-learning methods. A candidate shall be asked to withdraw if he has not fulfilled the requirements for award of the degree after a maximum of eight semesters.

**DEPARTMENT OF RADIOTHERAPY**

**Postgraduate Diploma in Radiotherapy Technology (PGDRT)**

**Admission Requirements**

(a) Bachelor of Science Degree (not lower than a third class) in Imaging Science (Radiography) or Higher National Diploma (not below lower credit) in Diagnostic Radiography from recognized institution registrable with Radiographers Registrations Board of Nigeria and from recognised institutions.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’level credit passes at two sittings including English Language, Mathematics and any 3 other Science subjects including Chemistry, Geography, Biology, and Physics.

**FACULTY OF DENTISTRY**

**DEPARTMENT OF ODONTOLOGY**

**Postgraduate Diploma in Forensic Odontology (PGDO)**

(a) The PG Diploma shall be undertaken as a 12 month full time programme.
(b) A Dental resident doctor in training may be considered on recommendation and approval by the training Institution.
Admission requirements
Students will be admitted to the Postgraduate Diploma in Forensic Odontology program in accordance with the regulations and the requirements of the University of Ibadan, a candidate must:

a) Possess the basic professional degree in Dentistry (BDS) or its equivalent from University of Ibadan or any other University recognised by the Senate of the University of Ibadan.

DEPARTMENT OF PEACE, SECURITY AND HUMANITARIAN STUDIES

Master of Humanitarian and Refugee Studies (M.H.R.S.)

(i) Objectives:
The M.H.R.S. Programme is a multidisciplinary course designed for meeting some of the most urgent needs on contemporary Africa’s human security agenda in armed conflicts, humanitarian crisis and intervention, disaster and refugee management. The Programme seeks to foster understanding and knowledge about problems thrown up by those phenomena, as well as the designing of appropriate policies and action measures for linking relief work, development and conflict resolution. Another key objective of the Programme is directed at building self-sustaining capacity for responding to humanitarian needs, aimed at helping to develop professionally trained and competent personnel for project design and implementation of policies in the area.

(ii) **Admission Requirements:**

Candidates seeking admission into the M.H.R.S. Professional Degree Programme must possess at least an Honours degree in the humanities, social sciences, sciences, law or any other cognate disciplines from the University of Ibadan or other Universities recognised by Senate with a minimum of 3rd Class. Applicants with Higher National Diploma (HND) with at least lower credit will also be considered for admission. Preference shall be given to sponsored candidates doing jobs related to refugee and humanitarian activities in State ministries, industries, multilateral agencies, non-governmental organizations, etc. In addition, candidate must satisfy the first degree matriculation requirement of the University of Ibadan, or their equivalent from other recognised universities.

**Note:** *The Programme will be run both on Part time and Full time bases.*

(iii) **Duration:**

The Programme is of three semester duration, which includes three months of supervised internship, possibly at refugee camps, rehabilitation camps for internally displaced persons, conflict management departments within regional and sub-regional organizations, UN agencies with humanitarian mandates in Africa. It is also run as a part time programme in line with the postgraduate College regulations for part time programmes.

(IV) Scholarship opportunity is annually provided by the German Exchange Service (DAAD) for Non-Nigeria applicants. For more information on the scholarship, the Non-Nigeria applicants are advised to forward their application to this e-mail: secretarycepacs@gmail.com

**Master of Science in Strategic Studies**
The Master of Science (MSS) programme in Strategic Studies is a unique programme and the first of such to be established by any university/department in Nigeria.

The uniqueness and strength of the Ibadan master’s degree in Strategic Studies lie not only in its being novel but because the programme also harnesses the potential pool of teaching and research competence of the department of Peace, security and humanitarian Studies for an intensive course of studies and seminars in subjects that are increasingly becoming of awesome interest and significance to Nigeria and her needs.

The programme is directed at three Objectives: Academic, Utilitarian, and Policy-Relevance. The programme aims at producing on a regular basis, the requisite manpower of informed specialists in both the civilian (NB: Civilian must possess Certificate of National Defense College Nigeria before applying for this programme) and military sectors that can deal with issues of public and/or military policy touching on Nigeria’s security and interest.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

Master Degree in Strategic Studies M.Sc./M.S.S.

The Master Degree Programme in Strategic Studies is an Executive Programme. Candidates seeking to apply for the programme, apart from having the general University requirements; must also possess a working experience of 15 years and above or must have attained the level of Assistant Director in the public service or the managerial cadre in the private sector. For applicants in the Military, Paramilitary and Intelligent-services, they must have at least attained the rank of Lt. Colonel or its equivalent.

Professional Master in Disaster Risk Management (DRM)

Admission Requirements

Admission is open to graduates of this university and other approved universities with a good honours degree in the Social Sciences, Public Health and related disciplines, Agriculture and Forestry, Veterinary Medicine, Environmental Science, Town Planning, Science and Engineering or equivalent professional qualification such as H.N.D., etc with a minimum of lower credit. Working experience, especially in disaster risk management in government and the private sector.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language OR
Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

**Professional Master in Peace Building and Development.**

*The Programme:*

The programme is aimed at providing students drawn from Nigeria, Africa and other parts of the world with, primarily a practical understanding of the issues of peace and conflict in the modern world, and with particular reference to Africa, based on perspectives drawn from a range of academic disciplines. The focus of the programme is on how to produce peaceful outcomes from conflict situations.

*Admission Requirements:*

A candidate for admission into the programme shall be a graduate of the University of Ibadan or other approved universities who have been admitted to the appropriate degree of Bachelor. Holder of Higher National Diploma (Lower Credit) or other relevant professional qualifications who are working in related field shall also be considered for admission.

A candidate who is a degree holder and who has worked for three years (excluding National Youth Service) or a candidate who holds the Higher National Diploma with five years working experience in relevant agencies will have additional advantage.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

**FACULTY OF LAW**

**MASTER OF LAW (LL.M)**

(i) *The Programme:*

The LL.M degree programme is conducted on an interdepartmental basis.

(ii) *Admission Requirements:*
Admission is open to any holder of a Bachelor’s degree in Law of this University or any other recognised University. Candidates may be required to undergo a selection process. They are therefore encouraged to provide their e-mail addresses and telephone numbers to facilitate invitation for the interview. You will be required also to produce your Call to Bar and Law School Certificates.

DEPARTMENT OF SUSTAINABILITY STUDIES

Professional Master in Development Practice (MDP)

**Admission Requirements:**

A candidate for admission to the MDP programme must be a graduate of a university/institution recognised by the University of Ibadan Senate with a minimum of second class lower division, in the field of Medicine, Health Sciences, Social Sciences, Management Sciences, Agriculture, Engineering, and Humanities. Holders of the Higher National Diploma and Third-Class degree from institutions recognised by the Senate of the University of Ibadan may be considered for admission. The applicant must satisfy minimum matriculation requirements of the University of Ibadan i.e. a minimum of five subjects at ordinary level, including English Language, all passed at credit level at not more than two sittings. Relevant work experience in development practice will be an advantage. Admission is open to applicants from all over Africa and beyond.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

**Postgraduate Diploma, Professional and Master Programmes in Indigenous Knowledge and Development**

**Duration**
The Master’s Degree programmes in Indigenous Knowledge will be of three Semesters duration. The first two semesters will be for the taught courses and seminars while the third semester is for internship and writing of project report. The Postgraduate Diploma will be for duration of two semesters.

**Admission Requirements**

Applicants to any of the programmes must satisfy the matriculation requirements of the University of Ibadan.

(a) Admission to **Postgraduate Diploma** (PGD) is open to candidates with minimum of lower credit in Higher National Diploma or equivalent as recognised by the University of Ibadan from time to time.

(b) Admission to the **Professional Master’s** in IK Degree Programme is open to graduates of this University with at least third (3rd) Class, or of other approved universities in the Social Sciences, Humanities, Sciences, Health Sciences, Technology, Applied Sciences. Holders of Higher National Diploma with upper credit or candidates with Higher National Diploma with lower credit plus the Postgraduate Diploma in IK may also be offered admission.

(c) Admission to **Academic Master’s** in IK Degree Programme is open to graduates of this University with at least Second Class Lower (22) or of other approved universities in the Social Sciences, Humanities, Sciences, Health Sciences, Technology, Applied Sciences.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

**Professional Master in Tourism Programme (PMTD)**

Candidates should possess a minimum of Second Class Honours (Lower Division) in Agriculture, the Sciences, the Social Sciences or the Humanities. Relevant working experience would be at an advantage or HND or its equivalent (with a minimum of lower Credit grade) in Agriculture, the Sciences, the Social Sciences or the Humanities with a minimum of 3 years’ working experience.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.
**Professional Master in Integrated Rural Development in Africa (MSIRDA)**

The Professional Master’s Degree programme is aimed at teaching and research in Integrated Rural Development. It is geared towards training serving and aspiring rural development workers and others who wish to advance their knowledge, skills and expertise through specialized training in integrated rural development. The long-term objectives of the programme are:

1) to increase knowledge and enhance learning about rural development and sustainable development;

2) to promote transparency, accountability, professionalism, and efficiency in integrated rural development;

3) to generate alternative frameworks and guidance for rural development, seeking to strengthen national electoral systems;

4) to encourage the use of sustainable development practices in integrated rural development;

5) to identify cost-effective elements in sustainable design; and

6) to highlight the innovations and encourage knowledge-sharing in integrated rural development.

**Admission Requirements**

(a) Admission to the MSIRDA Degree Programme is open to graduates of this University with at least Third Class or of other approved universities in the Social Sciences, Humanities, Sciences, Health Sciences, Technology, and Applied Sciences.

(b) Candidates with Higher National Diploma with upper credit are also considered for admission. This however will depend on having appropriate years of post-graduation experience related to sustainable rural development.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’level credit passes at two sittings including English Language and other relevant science subjects.

**Postgraduate Diploma in Climate and Society Programme (CSP)**
Programme

The Postgraduate Degrees in Climate and Society Programme are aimed at teaching and research in Climate Change issues and development. It is geared towards training serving and aspiring development workers and others who wish to advance their knowledge, skills and expertise through specialised training in development in the context of Climate Change.

Objectives:

1. train middle and advanced level human resource on the science and impacts of climate change,
2. equip professionals with adequate skills to understand key issues, methodologies and approaches in climate change mitigation, adaptation and resilience,
3. bridge the gap between the scientific research and decision-making communities in climate change, its impact and adaptation issues,
4. increase understanding of methodologies and approaches in climate change adaptation,
5. promote resilience competencies in climate change-relevant contexts, including teamwork, communication and problem solving, and
6. strengthen ability to synthesise multi-disciplinary information and develop problem solving strategies using integrative approaches and systems thinking.

Admission Requirements

Applicants to the programme must satisfy the matriculation requirements of the University of Ibadan for their cognate disciplines.

a) Admission to the Academic Master’s in CSP is open to graduates of this University with at least 2nd Class Honours lower division or of other approved universities in relevant disciplines.

b) Admission to the Postgraduate Diploma (PGD) in CSP is open to graduates of this University with at least a third (3rd) Class or other approved universities in relevant disciplines as well as holders of Higher National Diploma (HND), with minimum of lower credit from recognized institutions.

Duration:

The Academic Master’s Degree in Climate and Society Programme will be of three semesters duration of full-time study. The first two semesters will be for taught courses and seminars while the third semester is for Research Project. Internship is compulsory for all programmes at Department of Sustainability Studies.
In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

FACULTY OF VETERINARY MEDICINE

DEPARTMENT OF VETERINARY MEDICINE

Professional Master of Tropical Veterinary Medicine (M.T.V.M.)

(i) The Programme:

This programme consists of courses, taught over three semesters leading to the degree of Master of Tropical Veterinary Medicine, (M.T.V.M.) in the Faculty of Veterinary Medicine, especially in the areas of diagnosis epidemiology, control of tropical diseases and animal production.

(ii) Admission Requirements:

The programme is designed for those with a first degree in Veterinary Medicine (D.V.M., B.V.Sc. or equivalents) from a recognized University. Preference will be given to applicants with at least three years post-qualification experience.

DEPARTMENT OF VETERINARY MEDICINE

Professional Master of Veterinary Science (M.V.Sc.)

(i) The Programme

This programme consists of courses taught over three semester (full time) or five semesters (part time) leading to the degree of Master of Veterinary Science (M.V.Sc.) in four major areas of food animal, small and laboratory animal, poultry and fish medicines. Emphases are placed on diagnosis, epidemiology and control of tropical diseases.

(ii) Admissions Requirements
The programme is designed for those with a first degree in Veterinary Medicine (B.V.M. & D.V.M., B.V.Sc. or equivalent) from this University or any other recognized by the Senate of this University.

Doctor of Medicine (M.D.) Degree Programmes of the University of Ibadan for 2021/2022 session

M.D. Degree

A. General Requirements for M.D. Degree

General Requirements governing higher degrees shall apply, with the following modification:

(a) General Regulation A.1: Admission

(i) Candidates for admission to the degree of M.D. examination must have obtained the degree of Bachelor of Medicine and Bachelor of Surgery or Bachelor of Dental Surgery of any University recognized by the Nigerian University Commission and be eligible for full registration with the Medical and Dental Council of Nigeria.

(ii) In every case, to be eligible to register for Doctor of Medicine (M.D.), a candidate should have a minimum of three (3) years post medical/dental professional qualification(M.B.,B.S./BDS/MBChB) experience which shall include at least one year of professional experience in the specialty area of the intended study.

(b) General Regulation A.2: Registration

(i) A candidate shall be admitted to one of the Departments of the College of Medicine and be registered as a candidate of that Department.

(ii) When applying for registration for the degree, the candidate shall provide evidence in writing that he had the benefit or advice from a Senior University Teacher of the University (a Senior Lecturer with a M.D./DDS/Ph.D. or a Reader/Full Professor) in the field covered by the subject
of the proposed thesis. Such a teacher must be acceptable to the Postgraduate Committee of the College of Medicine and the Postgraduate College.

FACULTY OF PUBLIC HEALTH

EPIDEMIOLOGY AND MEDICAL STATISTICS

ACADEMIC MASTERS DEGREE IN DEPARTMENT OF EPIDEMIOLOGY AND MEDICAL STATISTICS

(a) M.Sc. Biostatistics
(b) M.Sc. Clinical Epidemiology
(c) M.Sc. Epidemiology
(d) MPH Field Epidemiology
(e) MPH Medical Demography

(a) M.Sc. B.Sc. Biostatistics
This programme is open to graduates of the Mathematical Sciences such as Mathematics, Statistics and Computer Science. Candidates must obtain at least second class lower degree at graduation. Prospective candidates must have obtained a NYSC certificate or an exemption and must provide evidence of sponsorship or availability of support for the course.

(b) M.Sc Clinical Epidemiology
This programme is only open to graduates of Nursing, Physiotherapy, human nutrition, medical laboratory sciences, radiology, dentistry and medicine, candidates must have professional medical degree or a second class upper degree in the cognate discipline. Candidates must show evidence of two years working experience in cognate settings including NYSC certificate or exemption.

(c) M.Sc Epidemiology:
This programme is open to graduates of Nursing, Physiotherapy, human nutrition, medical laboratory sciences, radiology, dentistry and medicine or public health. Candidates must have professional medical degrees or a second class upper degree in the cognate discipline. Candidates must show
evidence of two years working experience in cognate settings including NYSC certificate or exemption.

Graduates of Education, Basic Medical Sciences, such as Anatomy, Physiology, Biochemistry, Botany, will not be considered and need not apply.

FACULTY OF SCHOOL OF BUSINESS (UISB)

Translating realities to business opportunities

ADMISSION INTO PROFESSIONAL POSTGRADUATE PROGRAMMES

The University of Ibadan invites applications from suitably qualified candidates for admission into the under-listed professional postgraduate degree programmes of the University of Ibadan School of Business (UISB)
a) Master in Business Administration (MBA) - Executive
b) Master in Business Administration (MBA) - Full-Time or Part-Time
c) Postgraduate Diploma in Management (PGDM) - Full-Time or Part-Time.

Available areas of specialization:

✓ Agribusiness
✓ Telecommunications
✓ Marketing
✓ Personnel
✓ Finance and Accounting
✓ Entrepreneurship and Operations Management

ELIGIBILITY:

Master of Business Administration (MBA)

Candidates should possess a Bachelor’s degree from a recognized University, with minimum of Second Class Honours (Lower Division).

OR

HND (Upper Credit) or ACA, ACMA, AIBA, CIS, CIBN, ACTS etc at minimum of merit level.

OR

Bachelor’s degree from a recognized University, with Third Class or Pass, plus Postgraduate Diploma.

OR

HND (Lower Credit) from a recognized Institution, plus Postgraduate Diploma.

Postgraduate Diploma in Management (PGDM)

Candidates should possess Bachelor’s degree from a recognized University, with Third Class or Pass.

OR

HND (Lower Credit)
OR

ACA, ACMA, AIBA, CIS, CIBN, ACTS etc at minimum of merit level.

FLEXIBILITY

The executive MBA has been made flexible to accommodate the Business Executives to break their studies and be certified at every break.

NOTE: i. All candidates must satisfy the University of Ibadan matriculation requirements of five credit passes including English at the Ordinary Level (O/L) at one sitting or six credit passes at two sittings.

ii. All applicants may be required to take the English proficiency examination at the University of Ibadan School of Business, University of Ibadan on (*6 wks from publication date*).

DEPARTMENT OF BUSINESS, ENTREPRENEURSHIP AND EXECUTIVE EDUCATION

Professional Master (M.Sc in Entrepreneurship Studies)
Academic Master (M.Sc in Entrepreneurship Education)
Doctor of Philosophy (Ph.D) Entrepreneurship Education,
Master of Philosophy (M.Phil).

| Entrepreneurship Education | 5 ‘O’ level credits at ONE sitting or 6 ‘O’ level credits at TWO sittings to include English Language, and any other relevant matriculation subjects. | NOT BELOW SECOND CLASS LOWER |

The Following Programmes are available

Academic Master (M.Sc in Entrepreneurship Education)

The duration of the Academic M.Sc shall be a minimum of three (3) semesters and a maximum of 5 semesters for full-time students.

Applicants are required to have a minimum of Second Class Lower (2^2) in ANY discipline. They should also possess 5 credits at one sitting as well as credit in English Language at O’level.

Professional Master (M.Sc. in Entrepreneurship Studies)
The duration of the full programme shall be a minimum of three semesters for full-time students. The programme, which shall be in modules, shall allow the entrepreneurs the flexibility to undergo the programme in convenient portions and be awarded the commensurate certificate or diploma.

I. A student who completes a minimum of one semester on the Professional track and passes a minimum of 15 units (Max 20) including the compulsory courses for the first semester and wishes to take a break from the programme shall be awarded a Certificate in Entrepreneurship Studies.

II. A student who completes a minimum of two semesters on the Professional track and passes a minimum of 30 units (max 40) including compulsory courses for the second semester and wishes to take a break from studies shall be awarded a Entrepreneurship Studies.

III. To be awarded the M.Sc. Degree in Entrepreneurship Studies, a student must complete the minimum of three semesters and pass a minimum of 45 units (Max 60) including all the compulsory courses and internship (equivalent of Industrial Training)

Application into the programme are required to have a minimum of lower credit Higher National Diploma (HND) or its equivalent as recognised by the University of Ibadan Senate from time to time. Degree holders in any discipline with the basic admission requirements for the University of Ibadan shall also be considered.

FOREIGNERS WITHIN AND OUTSIDE NIGERIA

Non-Nigerian applicants within and outside Nigeria should obtain an invoice from the Postgraduate College website and pay into the banks using draft/bank cheque of the value generated on the invoice, payable to the Postgraduate College, University of Ibadan

IMPORTANT NOTICE

GENERAL

Admission Requirements for the Department of Food Tech.; “candidates with B.Sc degrees in Biochemistry, Chemical Engineering, Food Engineering, Microbiology, Nutrition, and Chemistry will be required to spend an additional 2 semesters on the programme”.

The minimum duration for any Master programme in the University of Ibadan is three semesters of full-time study.

In addition to individual departmental course requirements, candidates should please note that in accordance with the University’s regulation, they must satisfy the O’level first degree matriculation requirements of the University of Ibadan i.e. 5 ‘O’ level credit passes at ONE sitting or 6 ‘O’ level credit passes at not more than two sittings including English Language for ALL disciplines and Mathematics for ALL Science-based disciplines, Economics and Educational Management.
Candidates with NCE must have credit passes in WASCE, NECO or merit or credit passes in Teacher Certificate Grade II (obtained between 1967 and 1981) in English Language and four other relevant matriculation subjects.

With the exception of programmes that are both academic and professional (e.g. LLM, M.P.H., M.Inf.Sc., M.L.I.S., M.A.R.M., and M.P.C.S.) only candidates with an academic Master’s degree may be considered for higher academic programmes such as M.Phil and Ph.D. Further information on the admission requirements can be obtained from the website of the Postgraduate College.

All Postgraduate applications into the University of Ibadan must be made through this platform with exception of the following recognized/approved platforms:

(1) www.cmdportal.com

(2) www.cemarportal.com

(3) www.nimbs.org

Kindly enter full name i.e Surname, First Name and middle Name.

No change of name would be entertained except for ladies on marital ground.
